Smart Garage Door Controller OMS-102

⚠️ Test Device For Opener Compatibility

1. Power up the garage device, the red light and blue light flash alternatively.
2. Use the included Red & Black wire to connect the device to your opener; Put each end to the same terminals as the wall button wires are terminated to.
3. Use a tiny screw or nail to click the button in the device, your garage door should activate.

If this test fails, your device may not be compatible. For security signal enable motors, device has to be connected directly to the remote controller, within range of the motor.

This may need some soldering of the cables to the remote by a professional.

Test OK! Click the button every time, the garage door will open or close.

Below are checklist before using the device:

- Your smart phone or tablet should have connected a 2.4G WiFi with internet.
- The device only supports 2.4G Wi-Fi.If you use a 5G router(it provides two Wi-Fi signals: 5G and 2.4G), please select the 2.4G WiFi to connect your smart phone.
- During pairing process,make sure that your IOS or Android device and the garage are within the range of your WiFi router.
- Make sure your router is MAC-open.If not, please cancel the router's MAC filtering setting first.

* Install the "Smart Life" APP.

Add Device

* The garage door will be activated when added successfully (when the blue LED stop blinking), so keep your door closed first.

- 1 Power up the garage ,the red light and blue light flash alternatively.

***Keep your garage door closed**

EASY INSTALLATION

1st Step:
Power up.

2nd Step:
Connect to the wall console.

Insert the Red & Black wire 2.0mm terminal to the garage, then put each end to the same terminals as the wall button wires are terminated to.

3rd Step:
Connect to the garage door.

Insert the 2.0mm terminal of the sensor to the garage door, then steady install the sensor and the magnet with a gap within 3mm to 15mm on your garage door with screws/bracket/3M gums/wall nail/line holders/ties.

If it is hard to install with screws, you can also use the 3M gums to finish.

If you are worried about it falling, you can use both screws and 3M gums.
